Introduction

Total Digital has conducted The audit scope with the 11 principles contained in the Price Comparison Website Accreditation Framework ([CRU/19033](#)) published in March 2019 as agreed with CRU to complete the Audit Checklist (Annex A on the mentioned framework).

This document was created to highlight the results of the audit carried out on the Bonkers website. The methodologies applied during the audit included analysis of the Bonkers website, analysis of the various provider's websites, and interviews with key staff in Bonkers.

Accreditation Compliance Report

1. Independence and Impartiality

a. Independent of any gas or electricity supplier of affiliate

The company details records at the CRO are listed below.

| | |
|-------------------|--|
| Company Name | Bonkers Money Limited |
| Company Number | 477742 |
| Company Directors | David Kerr, Thomas Davy and Simon Moynihan |

The company is fully owned by Bonkers Money Limited (based in Dublin 4) which is an Irish registered company with a website address <https://www.bonkers.ie/>. There are no references or associations with any of the gas or electricity providers in Ireland for the company or the directors.

Company website: <https://www.bonkers.ie/>

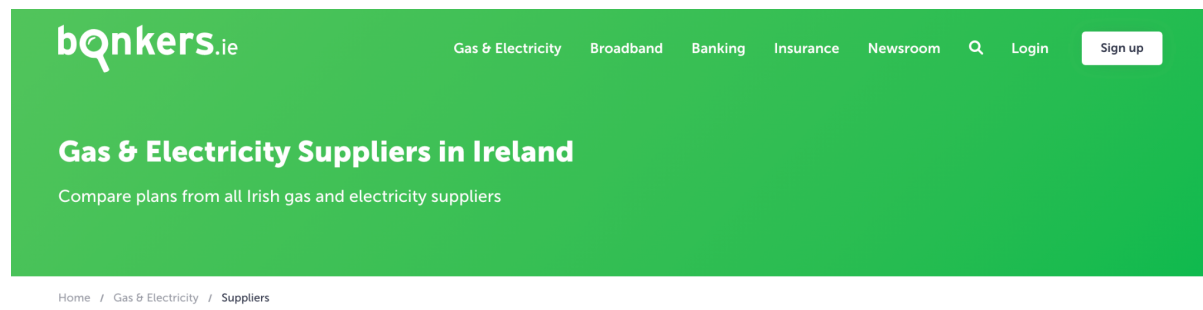

CRO website: <https://core.cro.ie/e-commerce/company/510583>

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

b. Information and data presented on the website is impartial

Bonkers.ie List all energy suppliers in a page providing impartial data on each provider.

Page link: <https://www.bonkers.ie/compare-gas-electricity-prices/providers/>

We compare price plans from all of Ireland's licensed gas & electricity suppliers

Image 1 Gas and Electricity suppliers

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

c. Results should be presented in terms of best practice

Results on the Bonkers website always display the top 10 lowest prices first for gas, electricity and dual fuel as below.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |

Image 4. Bonkers.ie results page for Dual Fuel

d. Table on the website that commission or payment is received by suppliers

On Bonkers website, On the “Gas & Electricity” page, there is a question under frequently asked questions “How is bonkers.ie free?” which highlights that commission is made when a customer chooses to switch gas or electricity through them.

Page link: <https://www.bonkers.ie/compare-gas-electricity-prices/>

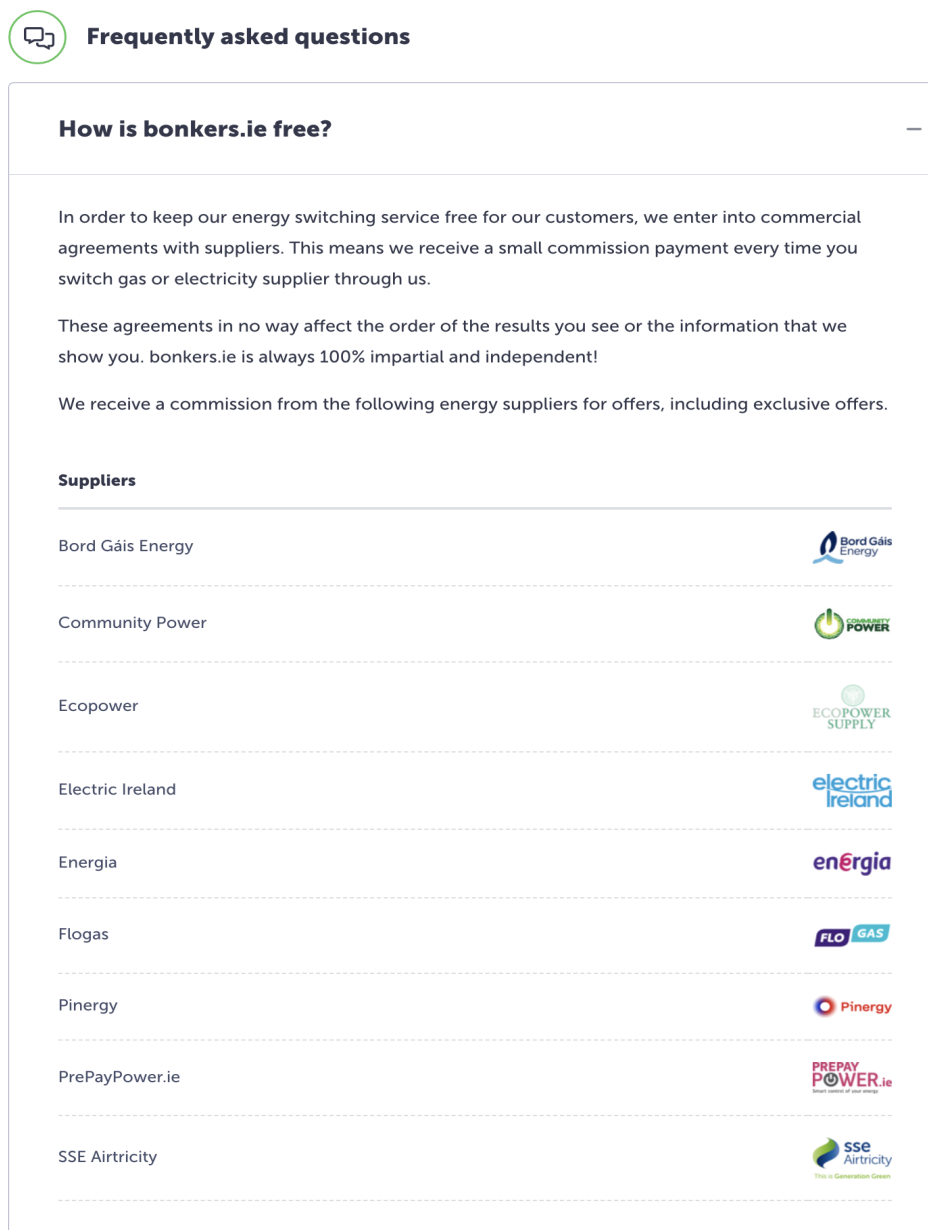

Image 5. Bonkers.ie How is bonkers.ie free?

Compliant with the requirement

YES

e. Table on the website that states from whom payments are received for exclusive offers

On the Bonkers website, On the “Homepage”, there is a section called “Frequently asked questions” and one of them is “How does Bonkers.ie make money?” which highlights that Bonkers.ie have commercial deals in place with some suppliers and receive a commission payment if the customer chooses to switch or apply for a product through their website.

Page link: <https://www.bonkers.ie/>

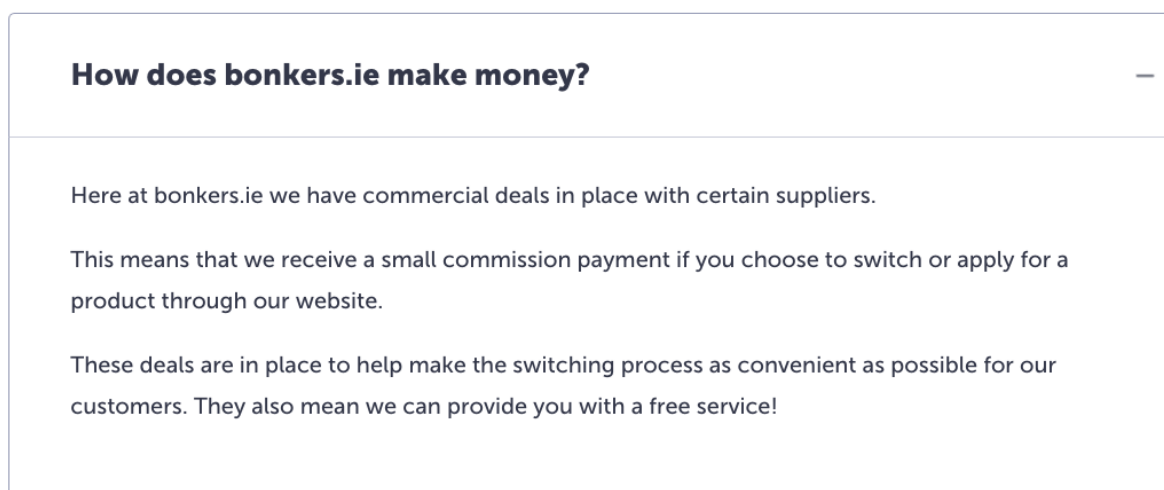

Image 6. Bonkers.ie How does Bonkers.ie make money?

And the table above (see image 5) mentions the exclusive offers payments.

Page link: <https://www.bonkers.ie/compare-gas-electricity-prices/>

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

f. Does not recommend an alternative supplier if a consumer cannot automatically switch online to their chosen supplier

As an example, (see Image 7) a customer cannot switch to an Energia plan via the Bonkers website. The website does not offer an alternative or present customer with a list of tariffs they can switch to online via the website. All tariffs are listed by cheapest (1-year cost) tariff even if the customer cannot switch online via the Bonkers website.

c. Rules around tariff offerings that expire/are due to change within the comparison period.

On the Tariff details page, if a tariff or discount ends during the comparison period, the calculation details include a breakdown of costs during those specific periods. In the example below, the discount ends on 25th October 2022, after the standard rate is used for the calculation.

f. Legacy information is presented for comparison purposes.

A legacy tariff is a tariff that is no longer available for sign up, however, it is a tariff that a customer could still be on at the moment. Legacy tariffs are included on Bonkers.ie so the consumer can select the correct base tariff for their comparison.

Mark Smith from Bonkers.ie was required to provide a list of some examples. Because this type of tariff was not available on suppliers' websites.

Examples provided:

1. **Bord Gais Energy** - Best Dual Fuel 31/40
2. **Electric Ireland** - EnergySaver 30%
3. **Energia** - Home Electricity 41%
4. **Flogas** - Green Future Dual Fuel 40/35
5. **SSE Airtricity** - 1 Year Electricity 33%

Payment Information

💳 Payment Method

Direct debit with Budget Plan

Budget Plan is applicable free of charge with this tariff - spread your annual energy costs across 12 monthly payments meaning no more high winter payments. Your payment is reviewed every four months, meaning no surprise bills! Direct debit customers frequently benefit from higher savings.

🏠 Security Deposit

SSE require all non-direct debit customers and all tenants to pay a security deposit.

Security deposits will be automatically credited to your account after 12 months of good payment history (which means payment received on time i.e. within the 14 day period starting from the date of your bill).

YES

i1 Where annual usages are not known, average annual consumption set by the CRU is used as default.

To calculate your savings for each of the available tariffs, we need to know how much energy is consumed in your home. You can tell us this in kWh or €. For best results, you should tell us your annual consumption in kWh, but don't worry if you're not sure, we can estimate this for you based on the national average consumption figure which is published by the Commission for Regulation of Utilities (CRU).

4. Accuracy and Updating Tariffs

a. Date the tariffs were last updated stated on the website

There is a static message at the bottom of the results page.

Image 22. Unit rates last updated date.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

b. Where possible new tariff/suppliers added within two working days

Mark Smith from Bonkers.ie has confirmed that *“Most suppliers will inform us in advance of any upcoming changes to their product offerings. New products will then be deployed to production on the effective start date provided by the supplier. We also conduct regular sweeps of the supplier's websites to confirm the active offers available.”* on Monday 10th October 2022.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

c. Tariffs with lead time in excess of four weeks are not to be included

Mark Smith from Bonkers.ie has confirmed that *“Yes, we do not load tariffs that have an effective date of more than four weeks.”* on Monday 10th October 2022.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

d. Where a price change has been announced, the EAB is calculated to reflect the price change.

Mark Smith from Bonkers.ie confirmed that *“When a supplier announces a price increase to the existing plan, we request for the new rates to be provided to us within 30 days. Once the new rates are provided, we set these to come into effect from their effective start date. Our comparison calculations will pro-rate the new rates, using the existing rates until the effective start date of the new rates.”* on Monday 10th October 2022.

Reviewing the calculation and the pro-rata calculation is available for all suppliers that are changing their plan unit rate.

Compliant with the requirement

YES

e. A message/link is provided for the calculation of estimated average price.

On the New Tariff details page, below the Estimated annual bill, Bonkers.ie presents a link to the details of the current plan and new plan calculations.

The screenshot displays the 'Standard Dual-Fuel' section of a new tariff details page. It includes a list of features: Paperless Billing, 1 year contract, Variable-rate tariff, and Prepayment. A 'see detail' link is provided. To the right, 'Electricity Charges' and 'Gas Charges' are listed with their respective unit rates and charges. A summary box shows a 'save €84.23 year one' and a 'Proceed' button. At the bottom, the 'estimated annual bill*' is shown as €3,929.51, with a red box highlighting the 'see calculations' link.

|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

7. Website management

a. Website provider manages and controls the website and uses its own tariff database and calculator.

Mark Smith from Bonkers.ie confirmed that the website maintains its own database of energy tariffs. This is updated whenever a new tariff is launched. and the database also maintains information on legacy tariffs, allowing our users to compare against a tariff that is no longer available.

The system is built in-house.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

b. Website provider retains full control over the information content and presentation.

All of the content and presentation of energy tariffs on bonkers.ie are handled internally. Providers can request that specific product features be called out on their tariffs but these must conform to the standard format used by the website. This requirement was verified and confirmed with Mark Smith *on Monday 10th October 2022.*

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

c. This is the only price comparison website owned by this third-party.

This requirement was verified and confirmed with Mark Smith *on Monday 10th October 2022.*

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

d. Approval given by the CRU where price comparison platform is used on third-party websites

This does not apply to Bonkers.ie, their database is managed in-house and does not provide our calculation engine to any other website. This requirement was verified and confirmed with Mark Smith *on Monday 10th October 2022.*

| | |
|--------------------------------|-----|
| Compliant with the requirement | N/A |
|--------------------------------|-----|

d1 CRU accreditation logo on a third-party website is accompanied by the accredited website's logo.

| | |
|--------------------------------|-----|
| Compliant with the requirement | N/A |
|--------------------------------|-----|

d2 The CRU logo is only being affiliated with electricity/gas markets on third party sites.

| | |
|--------------------------------|-----|
| Compliant with the requirement | N/A |
|--------------------------------|-----|

8. Consumer Information and Accessibility

a. Explanation of different payment methods shown (Credit by cash/cheque, direct debit, prepayment, other).

On the Bonkers.ie website there is a Frequently Asked Question link on the bottom of the compare gas and electricity prices page where customers can check the payment methods available and there is an explanation on point 13.

<https://www.bonkers.ie/guides/gas-electricity/switching-energy-supplier-frequently-asked-questions/>

13. What are the different payment methods available to me?

When switching the best deals are usually reserved for those who choose to pay by direct debit. This is because the supplier saves on administration costs and in turn is able to pass on some of those savings to you.

Many new tariffs are only available to customers prepared to pay by direct debit, however other payment methods are also available.

Direct debit

As mentioned, paying by direct debit is more convenient and usually cheaper than paying by cash or cheque. It's also the most common payment type nowadays. When your supplier sends you a bill either in the post or electronically, a date will be included when you can expect payment to be deducted from your bank account. You are usually given notice of two weeks before payment is expected. Many of the cheapest electricity and gas tariffs are available to customers paying by direct debit only. To pay by direct debit, you must provide your supplier with your bank sort code and account number, or your IBAN.

Cash or cheque

Some deals will allow you to pay by cash or cheque at a payment centre like a post office or in your bank. These tariffs are usually more expensive than paying by direct debit though.

Pre-payment

You can also choose to pay for your energy in advance by getting a [pre-payment meter](#) installed and topping up your account with credit. This credit can usually be bought in shops or purchased online.

With pre-payment plans you will have one less bill in the post to worry about. However these plans are usually a good bit more expensive than normal bill pay/direct debit deals.

Image 35. Payment methods explanation.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

b. Plain English is used.

The website has a clear layout and the English is understandable. Particularly in the key areas of the price comparison workflow and results pages. The image below shows the first step of the search process. Overall, the site is well-designed, and the information is easily accessible.

The screenshot shows the 'Gas & Electricity Price Plan Finder' form on the Bonkers.ie website. The form is titled 'Gas & Electricity Price Plan Finder' with the subtitle 'Switch to the cheapest gas and electricity price plan'. It includes a navigation bar with the Bonkers.ie logo, contact information (01) 256 0500, and links for Login and Sign up. The form is divided into sections: 'Your Household', 'Your Gas & Electricity Supply', and 'Need help?'. The 'Your Household' section asks 'Do you have the same supplier for gas and electricity?' with 'Yes' and 'No' radio buttons. The 'Your Gas & Electricity Supply' section asks 'Who supplies your gas & electricity?' with a grid of supplier logos (Bord Gáis, electric Ireland, enérgia, FLO GAS, PREPAY POWER.ie, SSE Airtricity) and a 'What's this?' link. It also asks 'What type of Standard Meter do you have?' with '24 Hour Meter (MCC01)' and 'NightSaver meter (MCC02)' radio buttons. The 'Need help?' section provides instructions on how to get the most accurate comparison and what to ensure before switching. A pop-up message from ESB Networks is visible over the supplier logos.

Your Household

Do you have the same supplier for gas and electricity?

☒ Yes ☐ No

[What's this?](#)

Your Gas & Electricity Supply

Who supplies your gas & electricity?

[What's this?](#)

Need help?

Everything you need to compare and switch will be on your most recent bill!

To get the most accurate comparison you need:

- ✓ The name of your current electricity and/or gas supplier.
- ✓ The name of the plan you're currently on, or the unit rate you're currently paying or your discount percentage.
- ✓ A good estimate on how much electricity or gas you use, either in euro or kWh's.

Before switching, please ensure that you are out of contract with your current supplier, as if you switch while in contract, you might be subject to an early exit fee.

Image 36. Bonkers.ie comparison page.

Compliant with the requirement

YES

c. Website pages meet international best practice for accessibility (Universal Design).

Bonkers.ie's website is fully mobile optimised, ensuring that it is easy to use across different devices (desktop, tablet, and mobile). Customers can easily navigate to one section of the website and return if necessary using the website's clear navigation.

The following points have been verified for accessibility:

- Provide appropriate alternative text
- Provide appropriate document structure
- Provide headers for data tables
- Ensure users can complete and submit all forms
- Ensure links make sense out of context
- Caption and/or provide transcripts for media
- Ensure accessibility of non-HTML content, including PDF files, Microsoft Word documents, PowerPoint presentations and Adobe Flash content
- Allow users to skip repetitive elements on the page
- Do not rely on colour alone to convey meaning
- Make sure content is clearly written and easy to read
- Make JavaScript accessible
- Design to standards

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

c1 Pages and attachments functionality meet guidelines from W2C World Wide Web Consortium

As detailed on point C. Bonkers.ie meets guidelines.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

d. Website understandable and accessible to all energy customers.

According to our audit at Bonkers.ie, the website was easy to use and comprehend and it also effectively explains the major components of the energy product for new site visitors.

The website is simple to use and doesn't use many technical terms. On each page of the comparison workflow, information is displayed and each step is clearly stated.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

e. Links to relevant terms and conditions for each tariff are provided.

A link to the supplier terms & conditions information is provided by Bonkers.ie at each supplier price plans details page.

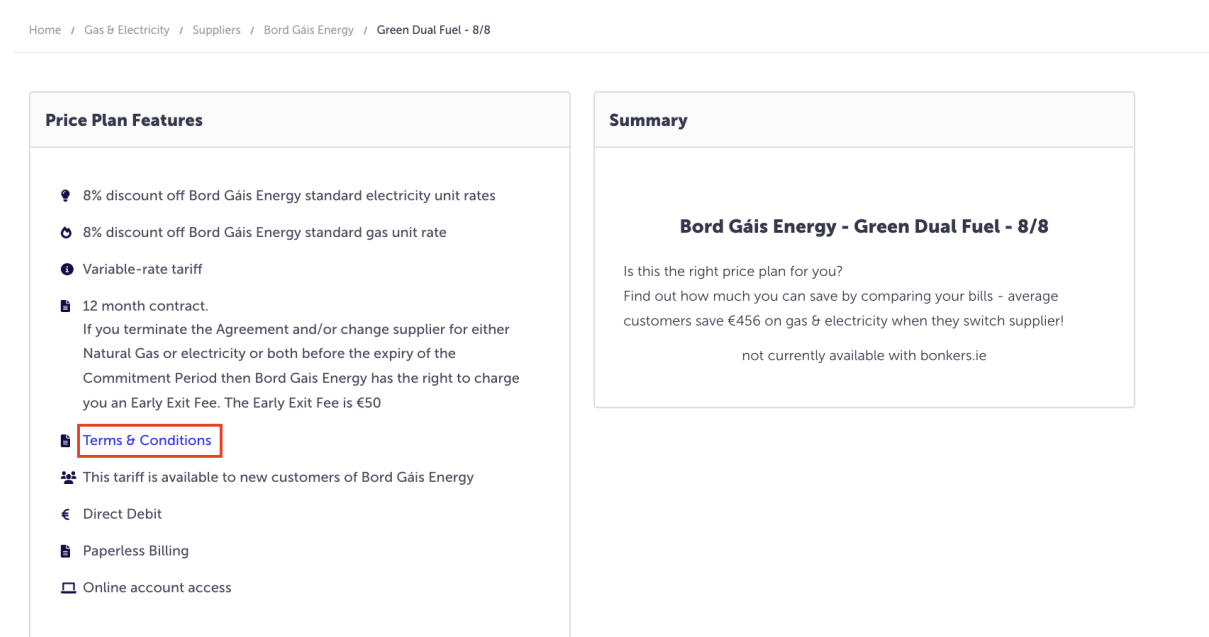

Image 37. Bonkers.ie tariff details page, link to supplier's T&C.

| | |
|--------------------------------|-----|
| Compliant with the requirement | YES |
|--------------------------------|-----|

f. Signposting is provided to independent sources on energy efficiency with reference to the SEAI

Searching by “energy efficiency grants” on homepage I found some mentioned SEAI but one article, specifically titled “What home energy efficiency grants does the SEAI offer?” has a link for more information related to insulation grants to the SEAI website.

<https://www.bonkers.ie/blog/gas-electricity/seai-energy-efficiency-grants%20/>

Additionally, there is a video titled "Energy efficiency with SEAI's"

<https://youtu.be/pC2CLa5Vmoo>

| a – Compliant with Data Protection Legislation | YES |

CRU Test scenarios and execution dates

The following test scenarios have been executed on the specified dates.

| No. | Energy | Current Supplier | Current Tariff | Supply Region | Night Saver Meter | Smart Meter included | Payment Method | cashback included | Date to be tested |
|-----|------------------------------------|-------------------|--|---------------|-------------------|----------------------|------------------|-------------------|-----------------------|
| 1 | Electricity | Community Power | Standard | Rural | Yes | No | Direct Debit | Yes | Monday, 10/10/2022 |
| 2 | | Electric Ireland | EnergySaver 30% | Urban | No | Yes | Direct Debit | No | |
| 3 | | Pinergy | Pinergy Smart/Classic | Rural | No | No | PAYG/Pre-payment | Yes | |
| 4 | | Bord Gáis Energy* | Standard electricity | Urban | No | Yes | Direct Debit | No | |
| 5 | Gas | Bord Gáis Energy | Standard gas | N/A | N/A | N/A | Direct Debit | Yes | Tuesday, 11/10/2022 |
| 6 | | Energia | Gas Offer – 15% | N/A | N/A | N/A | Direct Debit | No | |
| 7 | | Prepay Power | Prepay Standard Gas | N/A | N/A | N/A | PAYG/Prepayment | Yes | |
| 8 | | SSE Airtricity | 1 Year Gas – 10% | N/A | N/A | N/A | Direct Debit | Yes | |
| 9 | Dual fuel (with the same supplier) | Bord Gáis Energy | Dual Fuel – standard | Rural | Yes | No | Cash or Cheque | No | Wednesday, 12/10/2022 |
| 10 | | Electric Ireland | Dual – 8.5% + €150 Welcome bonus | Rural | No | Yes | Direct Debit | Yes | |
| 11 | | Flogas | Green future Dual Fuel 40/35% 1yr | Urban | No | Yes | Direct Debit | Yes | |
| 12 | | SSE Airtricity | 1 Year Dual – 10% + €300 eStore credit | Urban | Yes | No | Direct Debit | Yes | |

*On 10/10/2022 by email CRU team replaced the Test Scenario 4 supplier from Waterpower to Bord Gáis Energy.

Test scenarios validation procedure

The validation procedure was defined as the following steps to be executed for each scenario:

1. User access to Bonkers.ie comparison website and introduces the current tariff input parameters:

- Current Supplier
- Supply Region: Urban or Rural
- What type of meter do you have? Standard Meter or Smart Meter
- Night saver meter: Yes or No
- How bills are paid: Direct Debit, Cash or cheque or Pay As you go / Prepayment
- The National average is selected (4,200 kWh for electricity or 11,000 kWh for gas)

In addition, some parameters are introduced with default values:

- Include cash-back amounts in calculations? Yes or No. 'No' is selected by default.
- Only show tariffs available for sign up? Yes or No. 'No' is selected by default

2. The user clicks on “Compare prices”.

- Results page is opened. The resulting plans are sorted by price (best offer first).
- Top banner presents the calculated costs for the current plan.

3. The user clicks on the 'See calculations' link to obtain the Estimated Annual Bill of the current plan. Then, the user clicks on 'x' to close the popup and to return to the previous Results page.
4. User selects the first offer and clicks 'see calculations' to obtain the new plan breakdown of the price and savings.
 - Bonkers.ie shows the breakdown of the prices for the new plan
 - Total savings for the current energy plan and the new energy plan.
5. User browses to the current supplier's website to obtain details of the current tariff.
 - Selects the current energy plan, and take note of the standing charge rates, consumption rate (day and night when it proceeds) and taxes.
6. User calculates the cost for the national average consumption with the given data and identifies whether the calculated price matches the one presented by Bonkers.ie website.
7. User browses the new recommended supplier's website to obtain details of the new tariff.
 - Selects the new energy plan, and take note of the standing charge rates, consumption rate (day and night when it proceeds) and taxes.
8. User calculates the cost for the national average consumption with the given data and identifies whether the calculated price matches the one presented by Bonkers.ie website.

If the calculated tariffs on step 6 and step 8 are correct, the test scenario is considered successful and noted as PASS.

Please note that a margin of +/- €2 margin error is allowed for the effect of rounding in the tariffs.

Estimation verification

Bonkers estimated current tariff matches the calculations done with supplier information provided by Mark. There is a slight difference of €0.03 on bonkers.ie total cost.

The calculation was made with a Pro Rata by dividing the year cost of each tariff plan by 365 and then multiplying the days as below.

| | Start | End | Days |
|-------------------------|------------|------------|------|
| Current tariff : | 10/10/2022 | 30/11/2022 | 52 |
| New Tariff: | 01/12/2022 | 09/10/2023 | 313 |

Estimation verification

Bonkers estimated current tariff matches the calculations done with supplier information using a discount of 30% from 11/11/2022 to 30/11/2022 and the standard rate with a 5.5% discount from 01/12/2022 to 10/11/2023. There is a slight difference of €0.01 on bonkers.ie total cost.

The calculation was made with a Pro Rata by dividing the year cost of each tariff plan by 365 and then multiplying the days as below.

| | Start | End | Days |
|------------------|------------|------------|------|
| Current tariff : | 11/11/2022 | 30/11/2022 | 20 |
| New Tariff: | 01/12/2022 | 10/11/2023 | 345 |

Estimation verification

Bonkers estimated current tariff doesn't match the calculations done with supplier website information.

On Bonkers.ie the standing charge was € 260.06 as Pinergy released on September 5th, by email Mark said that "They confirmed that the rates listed on their site currently are what should be used. Their product has since been amended to reflect this. " I doubled check the standing charge and now it is € 287.88 as on the Pinergy website.

| 169.4 Inc VAT 155.41 Ex VAT | N/A | 14.61 Inc VAT 13.4 Ex VAT | 14.61 Inc VAT 13.4 Ex VAT | €1865 |

Prices effective from 2 October 2022.

Green Plans - the prices set out above apply equally to the Green versions of these tariffs and prices (where applicable)

Gas EAB also includes the Carbon Tax which is charged at €0.00741/kWh (ex VAT) or €0.00808/kWh (inc. VAT)

LRU EAB- An industry average annual usage figure of 11,000 kWh has been used to calculate the EAB for the LRU Price Plan (as required by the CRU).

Customers on the LRU Price Plan use above 73,000 kWh per annum, therefore the average annual bill is likely to be higher than the EAB shown. SPC used in the calculation represents the mid point of our Large Residential User customer base.

Our tariffs explained

Current residential gas tariffs & prices

Standard

2% Discount Applied

| Annual Standing Charge (€) | Capacity Rate (€/Peak day kWh) | Unit Rate (Cent per kWh) | Unit Rate - 2% Discount | EAB - 2% Discount |
|--------------------------------|--------------------------------|------------------------------|-------------------------------|-------------------|
| 169.4 Inc VAT 155.41 Ex VAT | N/A | 14.61 Inc VAT 13.4 Ex VAT | 14.31 Inc VAT 13.13 Ex VAT | €1833 |

Prices effective from 2 October 2022.

Green Plans - the prices set out above apply equally to the Green versions of these tariffs and prices (where applicable)

Gas EAB also includes the Carbon Tax which is charged at €0.00741/kWh (ex VAT) or €0.00808/kWh (inc. VAT)

LRU EAB- An industry average annual usage figure of 11,000 kWh has been used to calculate the EAB for the LRU Price Plan (as required by the CRU).

Customers on the LRU Price Plan use above 73,000 kWh per annum, therefore the average annual bill is likely to be higher than the EAB shown. SPC used in the calculation represents the mid point of our Large Residential User customer base.

Eligible customers with Microgen will receive a clean export tariff of 14cent per kWh payable twice yearly.

*Tariff discounts against SSE Airtricity standard gas and electricity unit rates. Offer valid from 23 October 2017. Rates valid from 1 October 2022. Rates subject to change. Figures have been rounded to two decimal places. Standing charges also apply. The Carbon Tax has been set at €0.00808 (inc. VAT)/€0.00741 (ex. VAT) per kWh. This tax applies to all domestic natural gas customers, irrespective of supplier. The Public Service Obligation (PSO) levy for electricity has been set at €0. This applies to all domestic electricity customers, irrespective of supplier. Offer is subject to a 12 month contract. For terms and conditions please visit sseairtricity.com

*Day/Night Timetable - Day (winter): 8am-11pm, night (winter): 11pm - 8am. Day (summer): 9am - midnight, night (summer): midnight - 9am. **Standard Smart Tariff Timetable - Day: 8am-11pm (excl. 5pm-7pm), Night: 11pm-8am, Peak: 5pm-7pm

| Standing Charges | | (cent per day) | | (euro per year) | |
|-------------------|--|----------------|----------|-----------------|----------|
| Electricity Meter | | Ex. VAT | Inc. VAT | Ex. VAT | Inc. VAT |
| Urban 24 hr | | 60.57 | 66.02 | € 221.08 | € 240.97 |
| Rural 24 hr | | 76.03 | 82.87 | € 277.51 | € 302.48 |
| Urban Nightsaver | | 77.81 | 84.81 | € 284.01 | € 309.56 |
| Rural Nightsaver | | 94.76 | 103.29 | € 345.87 | € 377.01 |
| Urban Smart | | 60.57 | 66.02 | € 221.08 | € 240.97 |
| Rural Smart | | 76.03 | 82.87 | € 277.51 | € 302.48 |
| Gas Meter | | Ex. VAT | Inc. VAT | Ex. VAT | Inc. VAT |
| Gas | | 38.28 | 41.73 | € 139.72 | € 152.31 |

Standing charges are a combination of the fixed charges associated with providing electricity and gas networks services and a share of the supply costs in servicing your account. Standing charges for electricity vary based on your meter type.

| Estimated Annual Bill [^] (inc VAT) based on DD/eBill | | | |
|--|------------|-------------------|------------|
| Standard Meter Type | 10%/10% | Smart Meter Type | 10%/10% |
| Urban 24 hr + Gas | € 3,727.56 | Urban Smart + Gas | € 3,721.23 |
| Rural 24 hr + Gas | € 3,789.06 | Rural Smart + Gas | € 3,762.50 |
| Urban Nightsaver + Gas | € 3,481.86 | | |
| Rural Nightsaver + Gas | € 3,549.30 | | |

Your Household

Do you have the same supplier for gas and electricity?

☒ Yes
 ☐ No

I have just moved in and do not have a supplier or I am a business customer

Your Gas & Electricity Supply

Who supplies your gas & electricity?

What is your electricity supply region?

☒ Urban
 ☐ Rural

What type of meter do you have?

☐ Standard Meter
 ☒ Smart Meter

How do you pay your electricity bill?

☒ Direct debit
 ☐ Cash or cheque
 ☐ Pay As You Go / Pre-payment

What is the name of your current dual fuel tariff?

Green Future Dual Fuel 40/35

When did you sign up to this tariff?

February 2022

Looks like you're still in contract - if you switch now, you might be subject to an early exit fee

Do you have an electricity NightSaver tariff?

☐ Yes
 ☒ No

How much electricity do you use?

I am not sure - use national average

How much gas do you use?

I am not sure - use national average

Your Results

Include cash-back amounts in calculations?

☒ Yes
 ☐ No

Only show tariffs available for sign up?

☐ Yes
 ☒ No

Estimation verification

Bonkers estimated current tariff matches the calculations done with supplier information provided by Mark. There is a slight difference of €0.03 on bonkers.ie total cost.

The calculation was made with a Pro Rata by dividing the year cost of each tariff plan by 365 and then multiplying the days as below.

| | Start | End | Days |
|------------------|------------|------------|------|
| Current tariff : | 12/10/2022 | 25/10/2022 | 14 |
| New Tariff: | 26/10/2022 | 31/01/2023 | 98 |
| New Tariff: | 01/02/2023 | 11/10/2023 | 253 |

Eligible customers with Microgen will receive a clean export tariff of 14cent per kWh payable twice yearly.

*Tariff discounts against SSE Airtricity standard gas and electricity unit rates. Offer valid from 23 October 2017. Rates valid from 1 October 2022. Rates subject to change. Figures have been rounded to two decimal places. Standing charges also apply. The Carbon Tax has been set at €0.00808 (inc. VAT)/€0.00741 (ex. VAT) per kWh. This tax applies to all domestic natural gas customers, irrespective of supplier. The Public Service Obligation (PSO) levy for electricity has been set at €0. This applies to all domestic electricity customers, irrespective of supplier. Offer is subject to a 12 month contract. For terms and conditions please visit sseairtricity.com

Eligible customers with Microgen will receive a clean export tariff of 14cent per kWh payable twice yearly.

*Tariff discounts against SSE Airtricity standard gas and electricity unit rates. Offer valid from 23 October 2017. Rates valid from 1 October 2022. Rates subject to change. Figures have been rounded to two decimal places. Standing charges also apply. The Carbon Tax has been set at €0.00808 (inc. VAT)/€0.00741 (ex. VAT) per kWh. This tax applies to all domestic natural gas customers, irrespective of supplier. The Public Service Obligation (PSO) levy for electricity has been set at €0. This applies to all domestic electricity customers, irrespective of supplier. Offer is subject to a 12 month contract. For terms and conditions please visit sseairtricity.com

*Day/Night - Day (winter): 8am-11pm, night (winter): 11pm - 8am. Day (summer): 9am - midnight, night (summer): midnight - 9am. **Standard Smart Tariff Timetable - Day: 8am-11pm (excl. 5pm-7pm), Night: 11pm-8am, Peak: 5pm-7pm

| Standing Charges | | (cent per day) | | (euro per year) | |
|-------------------|--|----------------|----------|-----------------|----------|
